

Angler's Lair

Nestled in a quiet neighborhood, the open-air house sits on 3000 square meters of tamed jungle, fruit trees, gardens and water features. The beach is just 5 minutes by foot, a well-stocked market, restaurants and vendors are also a short walk or peddle. It's an ideal location in a diverse neighborhood.

Originally from Oregon, we've made the Caribe Sur our home for more than 10 years. This big ol' house was our original home here, but now we live in a small beach shack nearby. We'll likely stop by with Zuri, our gentle Rhodesian Ridgeback, while Delgado, a stripey jungle cat, stays close to home. We look forward to welcoming you.
